- Attended general meetings, workshops, and conferences

Starbucks Coffee Company

Shift Supervisor

04/2018-10/2022

- Led the team to help meet store goals and managed daily operations

PROJECT EXPERIENCE

Metrics Automation - Python/JavaScript

- Using Python, automated the displaying and presenting of metrics by using requests library to make API calls to JIRA, gather and parse JSON data, and then used pandas to create visual graphs with the data

Hospital Vaccine Database and Patient Management System – MySQL, Java, HTML/CSS, BootStrap

- Designed and created a WebServlet that a hospital could use to view/edit patient and vaccine information using HTML/CSS and Bootstrap which connected to an SQL server for data access. A logged in user could then view and edit information depending on their account privileges

Personal Portfolio – JavaScript(React.js)

- Created a personal portfolio website using React and Sass. Utilized Sass variables and mapping of key-value objects and lists toward creating a scalable and readable environment
